## SB-1007 Osterman The Hidden Gun Ban **OPPOSE**

Proponents of SB-1007 don't want to admit it's a gun ban. From the 1873 Winchester John Wayne made immortal, to the Henry Rifle designed by B. Tyler Henry (used by Danny Glover in Silverado), the guns that won the west would be banned under SB-1007.

These guns all use tubular magazines that hold more than 10 rounds of ammunition.

If the bill was not intended to apply to firearms with fixed tubular type magazines, the supporters fail to explain why there is an exemption for tubular magazines on firearms that use .22 rimfire ammunition – but not those that use other calibers of ammunition?

Below are some of the firearms banned under SB-1007.
